## Online Pharmacy & Script Protocol Update...

A friendly reminder that effective September 1<sup>st</sup>, 2022, we will no longer approve prescription requests from outside pharmacies (i.e. Chewy, PetMeds, etc.).

If you require veterinary authorization to purchase products from an outside pharmacy - you will need to pick up a physical written prescription at our hospital. We do require at least a 24-hour notice in order to produce a completed script. We are unable to email scripts for medications as pharmacies will not accept an emailed script directly from a customer for meds. Some online pharmacies will accept an emailed script for prescription diet, but you would need to confirm this directly with the online pharmacy.

If you are looking to shop online only then check out online store and find great deals at [dupageanimalhospital.com](https://dupageanimalhospital.com) then click the red "Online Pharmacy" box in the top right-hand corner.

Or Scan the QR Code to the right >

You can use code **WELCOMEDAH10** (case sensitive) to receive **10% off** your first order. Don't forget, we have great prices on your pet's preventatives and easy auto-ship options as well.

Thanks,
